

COUNTY COUNCIL DECREE 34/1998, dated 10th March, which modifies the quantitative elements of public sale price charged for rendering cartographic services.

COUNTY COUNCIL DECREE 34/1998, dated 10th March, which modifies the quantitative elements of public sale price charged for rendering cartographic services.

One of the objectives of the County Council consists of the diffusion of information regarding the Historical Territory of Bizkaia, through the sale of copies of cartography prepared and edited by the Town Planning Department.

County Council Decree 114/1993 dated 16th of November, which agrees on the application and develops the regulation of the public sale price for rendering of cartographic services, covers, under article four, the quantitative elements which define the public sale price.

Notwithstanding the above, the evolution experienced in the last few years, both regarding the devices available and data processing applications used to prepare the cartography, and based on the application of new supports, such as the CD-ROM, deem necessary the revision of the quantitative elements of this public sale price.

By virtue of the same, and upon proposal from the County Council Deputy of the Exchequer, after deliberation and approval from the County Council, during its meeting held on 10th of March, 1998,

I HEREBY PROVIDE:

Single Article

The fourth article of the County Council Decree N° 114/1993, dated 16th November is hereby modified, which stipulates the application and develops the regulation of public sale price for rendering of cartographic services, which will read as follows:

“Article 4.- Quantitative elements”

Public sale price, including VAT, shall be in accordance with the following rates.
