STATUTORY DECREE 48/1999 of 23<sup>rd</sup> March, for the modification of the quantitative elements of the retail price applicable to the provision of cartographic services.

One of the objectives of the Diputación Foral (Provincial Government) is to disseminate and spread the public's knowledge on Bizkaia Historical Territory, through selling cartographic copies which have been prepared and published by the Town Planning Department.

In its article, Statutory Decree 114/1993 of 16<sup>th</sup> November for the implementation and development of regulations for the retail price applicable to the provision of cartographic services, modified by Statutory Decree 34/1998 of 10<sup>th</sup> March, contemplates four of the quantitative elements which define the retail price.

During the 1998 exercise, a number of studies were carried out, and as a result, two new cartographic products have emerged, of the map type, in regards to the Encartaciones and Arratia, and Orduña areas. These new maps are now required to be included in Statutory Decree 114/1993 of 16<sup>th</sup> November, for the implementation and development of regulations for the retail price applicable to the provision of cartographic services.

By virtue of the above, and at the proposal of the Provincial Counsellor of the Treasury and Public Finance, following deliberation and approval by the Diputación Foral (Provincial Government) during meeting held on 23<sup>rd</sup> March, 1999,

## I HEREBY DISPOSE

### Single Article

Modification of section 5 of article four of Statutory Decree 114/1993 of 16<sup>th</sup> November, for the implementation and development of regulations for the retail price applicable to the provision of cartographic services, which will hereon read as follows:
